

The Future of Solar Energy & Jobs in the Sunshine State

Monday, June 6, 2016

1 – 3:30 p.m.

University of South Florida's
Patel Center for Global Sustainability
4202 E. Fowler Ave., Tampa

We can do better in Florida to produce more rooftop solar power to match the potential of our Sunshine State. Solar and other alternative energy sources will help create local jobs and put money back into the pockets of consumers and businesses.

Join us to share your thoughts and learn about new opportunities, ideas and the exciting innovation occurring here at home and across the country.

For more information and to RSVP, contact anna.horvath@mail.house.gov

#TampaBayCleanEnergyFuture #TampaBayGoingSolar

Hosted by U.S. Representative
Kathy Castor (FL14)

Special guest
Dr. Lidija Sekaric,
U.S. Department of Energy,
Director of the Solar Energy
Technologies Office

Plus, hear from the region's
top solar and energy experts:

- **Susan Glickman**, Southern Alliance for Clean Energy
- **Dr. Yogi Goswami**, USF Center for Clean Energy Research
- **Jamie Johnson**, Energy Sense Finance
- **Scott McIntyre**, FLA-Alliance for Renewable Energy
- **Hon. Karl Nurse**, St. Petersburg City Council
